The 12th Library Fair and Forum with: 2010 Scientific Information Open Summit

Exhibiting information

Dear Colleagues

We are pleased to announce that the 12th Library Fair and Forum will be held again at Pacifico Yokohama, between November 24th – 26th, 2010. Since its inception in 1999, the year on year attendance has increased and the Fair has become recognized by various official organizations as a valuable venue for librarians, curators, and archivists.

A wide range of companies and technologies have been represented at past library Fair's; including publishers, information providers, equipment and systems manufactures and the media.

Based on the various comments and suggestions from all the exhibitors and the attendees at the 2009 fair, we are determined to create another successful fair in 2010. Each year we continue to feature specialists in the academic world who will present or speak on topics relevant to librarians and to the library world. The lectures, presentations and forums have always been well attended, thus ensuring an excellent venue supported by the exhibition itself.

We heartily welcome your participation. Details are enclosed herein.

Sincerely,

Kiyoshi Sato

Chairman

Library Fair Committee
